OBJECTIVE

I'm a passionate computer science student with a strong foundation in HTML, CSS, and JavaScript. I'm currently exploring modern tools like React, Node.js, Express, MongoDB and DBMS to build dynamic and impactful Web and Desktop Applications .

EDUCATION

- 2024-2028
BS COPUTER SCIENCE
FUUAST, Islamabad

WORK EXPERIENCE

E-Commerce Website:

Designed and developed 2 to 3 fully functional projects using HTML, CSS, JavaScript, and React. Implemented responsive designs, component-based structures, and interactive UI elements.

Stock Image Download Platform:

Developed a responsive web application that allows users to browse and download high-quality images using the Unsplash API. This project demonstrates my skills in web development, API integration, and building practical, user-focused applications.

SKILL

HTML

CSS

JavaScript
