Profile

Junior programmer with skills in JavaScript, React and Tailwind CSS. Focused on building clean and responsive websites. I am a BSCS student dedicated to learning modern web technologies and creating user-friendly digital experiences.

Employment History

Frontend Developer

December 2025 - February 2026

DeveloperHub Corporation - Remote

Built an online store where users can easily filter products by category, brand, and price.
Created a live shopping cart that updates totals instantly and a "save for later" wishlist that remembers items.

Education

Bachelor of Computer Science (BSCS)

March 2024 - March 2028

FUUAST, Islamabad

CGPA: 3.2 / 4.0

Professional skills

JavaScript	Advanced	React JS	Intermediate	Tailwind CSS	Intermediate
HTML CSS	Expert	JSON/Fetch API	Intermediate	Git & GitHub	Competent

Projects

Music Player | HTML, CSS, JavaScript

- Built an intermediate-level player that loads all song data dynamically from a JSON file.
- Used JavaScript Audio API to create custom logic for play, pause, and real-time progress tracking.
- Designed responsive and optimized UI for all screen sizes.

E-Commerce Website

- Built a fast and modern ecommerce store using React and Vite from scratch.
- Created dynamic features like a product gallery and a working shopping cart for users.

Certification

Modern Web Application development

Saylani Mass IT Training (SMIT) | Present

Learning to build complete websites from start to finish using the MERN stack (MongoDB, Express, React, Node.js).
Working on practical projects to make fast, responsive, and user-friendly web applications.
