

Musaeeb Zahir

Junior Frontend Developer with focus on modern development

Profile

Junior programmer skilled in JavaScript, React, and Tailwind CSS, with growing expertise in backend development using Node.js and Express. Focused on building clean, responsive, and scalable web applications. As a BSCS student, I am dedicated to learning modern web technologies and creating user-friendly digital experiences by combining strong frontend design with efficient backend solutions.

Employment History

Frontend Developer - DeveloperHub Corporation, Remote

December 2025 - February 2026

Built an online store where users can easily find products by category, brand, and price. Created a live shopping cart that updates totals instantly and a "save for later" wishlist that remembers items.

Education

Bachelor of Computer Science - FUUAST, Islamabad

March 2024 - March 2028

CGPA: 3.2 / 4.0

Projects

Aksify

Built Aksify, an image discovery app using React and Redux Toolkit, integrated with the Unsplash API to enable photo searching, category filtering, and downloading. Designed a responsive dark-themed UI with Tailwind CSS and implemented user authentication with localStorage persistence.

Certification

Modern Web Application development

Saylani Mass IT Training (SMIT) | Present

Learning to build complete websites from start to finish using the MERN stack (MongoDB, Express, React, Node.js). Working on practical projects to make fast, responsive, and user-friendly web applications.
